

CONSTRUCTION IMPACT NOTIFICATION

This Rider contains conditions that are material to your decision to enter into a License Agreement. Please read this Rider carefully. Your execution of the License Agreement will indicate your agreement with and acceptance of the following provisions and the Rider shall be incorporated into and become a part of your License Agreement.

RIDER TO MIT GRADUATE STUDENT HOUSING LICENSE AGREEMENT

The following terms and conditions are attached to and incorporated by reference into your License Agreement as entered into hereby. In the event of any inconsistency or discrepancy between the terms and conditions of the License Agreement and the following terms and conditions, the following terms and conditions shall apply.

During the current term of your License Agreement through approximately July 31, 2026, construction work may be undertaken in or adjacent to your Building. Except in emergency situations or unless otherwise noted, the construction work is expected to take place as indicated below. Non-emergency work within residential units will be scheduled on an as-needed basis, generally not before 8:00 am. Notwithstanding the foregoing, please be advised that public agencies and commercial property owners/developers may perform work outside of the work hours specified in this Rider.

Please note that the construction work and schedules listed below are preliminary only and will be subject to modification at any time. MIT reserves the right to change the scope and/or schedule of the construction work and initiate additional projects and repairs at any time beyond the scope and schedule of projects described below. In the event of any material changes or additions, MIT will use reasonable efforts to provide notification to residents in a timely manner.

Ashdown House (235 Albany Street, Cambridge, MA 02139 – Building NW35): 1 Total Construction Rider

1. Eversource Greater Cambridge Energy Program (GCEP)

Eversource is planning to construct a new <u>underground substation in Kendall Square</u>, <u>Cambridge</u>, along with five underground duct banks housing eight new 115-kilovolt (kV) transmission lines. Construction has begun and will extend through 2028. Impacts of the activities may include increased truck traffic, beeping from back-up alarms, noise generated for machinery, lighting as needed on site after sunset, and road and sidewalk access disruptions as utilities are installed. Reasonable efforts will be made to notify abutting residents in advance of planned activities that may cause significant noise or major disruptions.

Standard working hours for the project are expected to follow the City of Cambridge construction work hours of 7:00 am to 6:00 pm on Monday–Friday and Saturday from 9:00 am to 6:00 pm. Some City-permitted, after-hours work may be required to accommodate large equipment, traffic disruptions, and other activities.
